

OSU Women's Faculty Council

EQUITY IN THE WORKPLACE: TRANSFORMING ACADEMIC INSTITUTIONS & NAVIGATING ACADEMIC CAREERS

DR. SHARON R. BIRD

PROFESSOR AND HEAD
DEPARTMENT OF SOCIOLOGY

Thursday, Oct. 4th, 2:00 - 3:00 pm, CLB 106A

A regular WFC meeting will be held during the first 15 minutes.

The National Science Foundation's ADVANCE Program supports large-scale projects for enhancing equity in the recruitment, retention and advancement of underrepresented groups among university faculty. Research shows that while equipping underrepresented group members to navigate academic careers is helpful, sustained equity in recruitment, retention, promotion and leadership requires reconsideration of "business as usual" practices in institutions of higher education. Dr. Bird will share her research and experience associated with NSF ADVANCE and related programs.

Livestreaming available to other OSU campuses!
